

# Sharing for Agility

**Mike Vogler**

Don Stickel

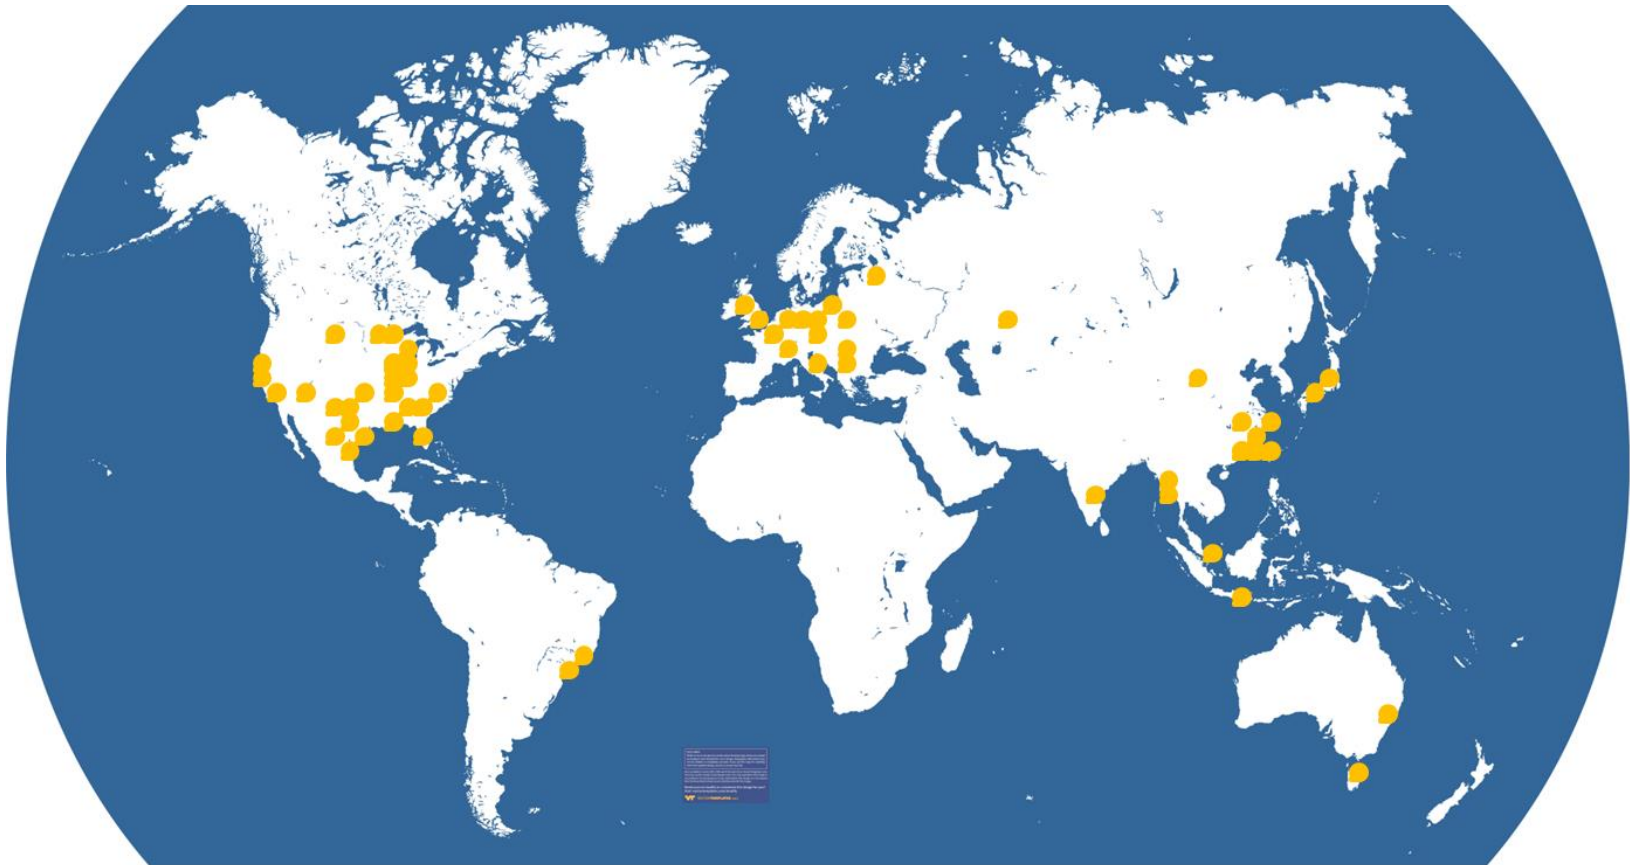

# “Age of Smart Iron”

## ...Driving the Increasing Need for Agility

- Competitive battlefield is increasingly “outside the machine”
- Machine is a platform
- Globally responsive production capability
  - Product Availability is KING

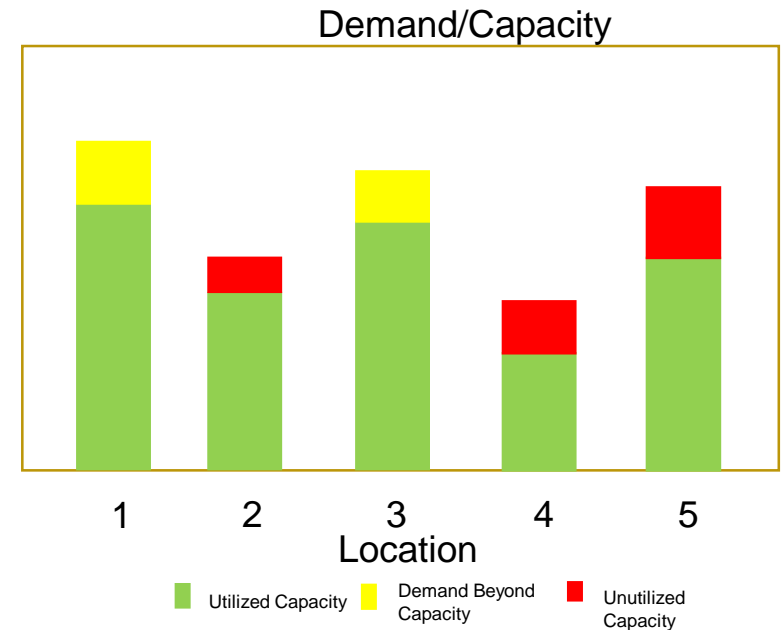

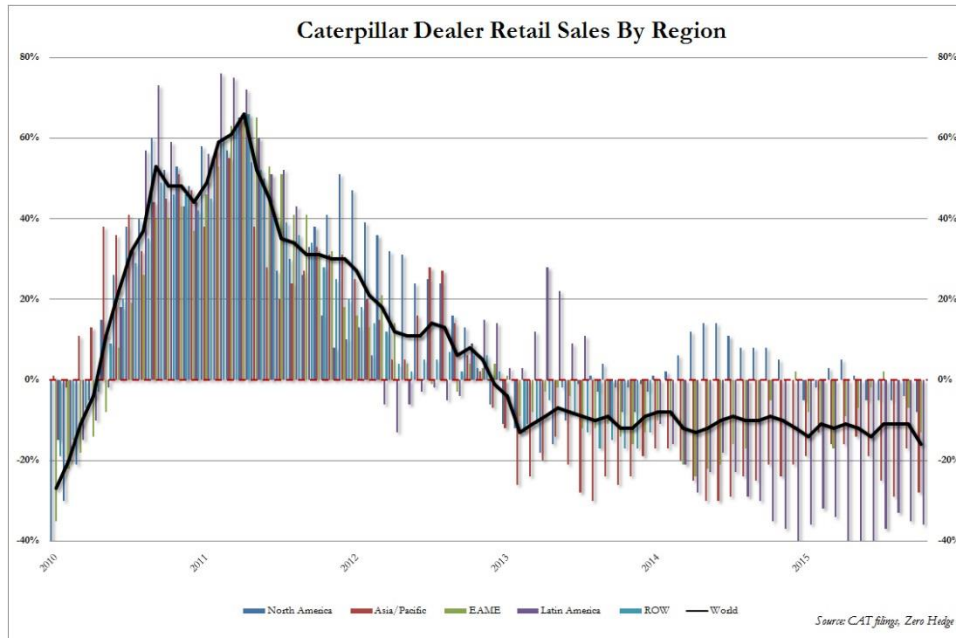

# Manufacturing Footprint –

Static, does not respond to volatility

# The Market

- Constantly Changing
- Subject to Swings in volume and region

# Increased Global Agility

...through “Sharing” Enabled by Technology

Workers

Reducing training times to near zero

Suppliers

Improved responsiveness and resilience

Equipment

Massively redeployable equipment

Knowledge

Manufacturing engineering transformation

# Massively Redeployable Equipment

## ...Supporting Incremental Capacity Investments

Distributed,  
Intelligent  
Machines

Self-Programming

Predictive  
performance via  
data analytics

# Near Zero Training Times

## ...Information Anticipating Demand

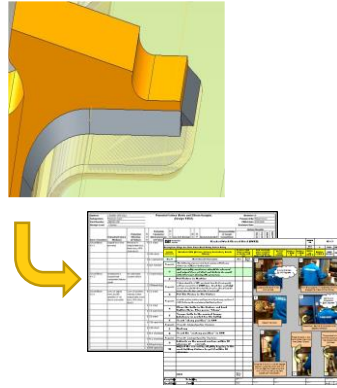

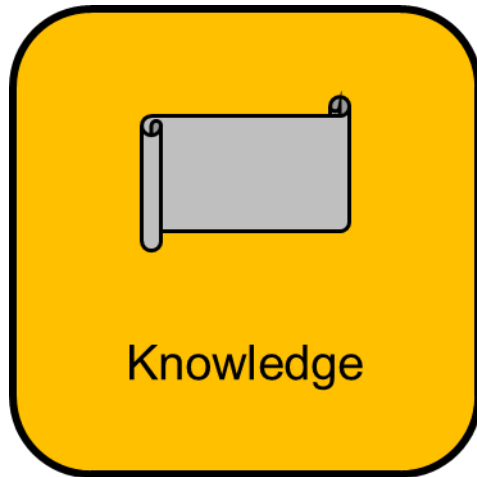

In-situ Work Instructions

Role-Based Guidance

# Manufacturing Engineering Transformation

## ...Efficient Knowledge Generation for Execution

Automated Artifact Generation

Machine Learning

# Agile and Resilient Supply Networks

## ...Fully Leveraging Global Capabilities

	Cost	Delivery	Quality

Competitive  
Marketplaces

# Thank You

- Many emerging technologies can dramatically improve production agility
- Challenge for all of us
  - Deploy them at SCALE
